

What's New with RTS?

- Added a link to the RTS Help Wiki under Help - Support.
- Added an option to waive internet ticketing fees for loyalty members.
- Updated the RTN to support ticket credit redemption.
- Added the ability to multiply the ticket points earned for online ticket sales.
- Added support for InterCard on RTS kiosks.
- Added ticket setting to filter the tickets provided in the open interface schedule.
- Updated method to assign new card to an online gift card - physical card purchase.
- Added support for Vantiv IDTech Augusta EMV Reader.

Check our website for a full list of changes
Change List

Hardware Spotlight - 15" Customer Display

The 15" Customer Touch Monitor displays reserved seating layouts on a spacious screen with a touch screen interface. Patrons may touch directly on the monitor selecting their seats, signaling the employee to determine the ticket type. A spec sheet is available on our website.

Customer Display Features

Not utilizing reserved seating? The display monitor also features advertisements, showtime signs, and reflects the transaction details during the purchase process. Please contact our sales department for additional information.

Newsletter Tip - Online Gift Cards

Increase your gift card revenue with the RTS online gift card platform. Online gift sales include both physical and virtual cards. Additional information can be found on our Wiki Page along with the gift card setup form. Our tech support team will use the completed form to create your gift card site, and is available 24/7/365 if you have any questions. Also, make sure when ordering your cards for the holiday season to add a QR code.
