

PM-15

15" TOUCH SCREEN MONITOR

The PM-15 touch screen monitor combines sleek, elegant design with easy-to-use touch screen technology, making it an ideal POS monitor or customer-facing display in combination with e.g. the Audrey or Ethan touch screen POS terminals.

The XGA 15 inch display provides best-in-class performance and is easy to integrate with any modern-looking POS station. It is especially popular in theaters, casinos and other POS applications that require a larger customer-facing display for customer interaction.

The monitor comes with a stand, but can also be attached to pole or wall, using a standard VESA mount.

Applications

- Point of sale
- Customer facing display

SPECIAL FEATURES

- 15 inch screen
- PCAP (Projected Capacitive) – 10-touch
- Bezel-free
- 1024 x 768 pixels resolution
